DISCLAIMER

This document has been prepared to provide guidance on aspects of the design, construction and operation of marinas in the Great Barrier Reef region. A wide range of physical, ecological and social environments exist within this region. Therefore these guidelines cannot be considered comprehensive for any specific development or aspect/s of a particular development. This document does not purport to be a complete guide on any subject. Independent technical advice should be sought on all matters covered by the document and the editor accepts no responsibility for any reliance placed on the document. Also, at each stage of a proposed development, relevant Commonwealth, State and Local government authorities should be consulted. These authorities and their responsibilities have been identified throughout this document where possible.

National Library of Australia Cataloguing-in-Publication data:

Environmental guidelines for marinas in the Great Barrier Reef Marine Park.
