

## CONTENTS

<b>SUMMARY.....</b>	<b>1</b>
<b>ACKNOWLEDGMENTS.....</b>	<b>2</b>
<b>INTRODUCTION .....</b>	<b>3</b>
<b>METHODS.....</b>	<b>6</b>
Organisms and Survey Methods .....	6
Survey Design .....	6
Data Processing and Statistical Analyses.....	8
Data Entry and Checking.....	8
Statistical Analyses .....	9
<b>RESULTS.....</b>	<b>11</b>
Effects of Zoning History and Tourist Use on Abundances .....	14
Main Effects of Zoning and Tourist Use .....	15
Effects of Zoning Related to Habitat .....	21
Effects of Zoning Related to Shelf Position .....	22
Interactions Between Effects of Zoning and Use.....	22
Effects of Use Related to Habitat.....	23
Effects of Zoning Related to Use and Habitat .....	23
Inter-annual Variations in Abundances.....	25
<b>DISCUSSION.....</b>	<b>30</b>
<b>REFERENCES .....</b>	<b>34</b>
<b>APPENDIX 1 .....</b>	<b>40</b>
<b>TABLES</b>	
1. The reefs nominated by GBRMPA staff and the authors for survey .....	7
2. Numbers of reefs in each category of past and future zoning status, shelf position, and tourist use .....	8
3. Details of reefs on which at least one <i>Acanthaster planci</i> was seen during the 1991 visual surveys of 50 reefs in the Cairns Section of the Great Barrier Reef Marine Park.....	11
4. Taxa counted sufficiently frequently for inclusion in at least one analysis .....	12
5. Analytical framework by which we tested for effects of Zoning History on reefs, given potential effects of Shelf Position and Habitat .....	13
6. Analytical framework by which we tested for effects of Tourist Use and Zoning History on reefs, given potential Habitat effects.....	14
7. MANOVA results for tests of effects of zoning history on non-tourist reefs .....	15
8. MANOVA results for tests of effects of zoning history on tourist reefs—1 .....	15
9. MANOVA results for tests of effects of zoning history on tourist reefs—2 .....	16
10. MANOVA results for tests of effects of zoning history and uses—mid-shelf reefs.....	17
11. MANOVA results for tests of effects of zoning history and uses—outer-shelf reefs.....	17
12. Probability of Type II error for each taxon for which the main effect of Zoning History was considered non-significant, and zoning history did not interact significantly with other factors.....	19
13. Type II error for each taxon for which the main effect of Zone was non-significant in analyses of Use and Zone, and Zone did not interact with other factors .....	20

14.	Probability of Type II error for each taxon for which the main effect of Tourist Use was considered non-significant in analyses of Use and Zoning History, and use did not interact significantly with other factors .....	21
15.	Results of MANOVA to test whether inter-annual differences in mean abundances between 1990 and 1991 varied with gross habitat features or shelf position .....	26
16.	Results of MANOVA to test whether inter-annual differences in mean abundances between 1990 and 1991 varied with gross habitat features on mid-shelf reefs .....	26

## FIGURES

1.	Bar charts of statistically significant main effects of zoning history on abundances of surveyed organisms .....	18
2.	Bar charts of statistically significant main effects of zoning history on abundances of plate and other acroporids (mid-shelf) and <i>C. citrinellus</i> (outer-shelf), and of tourist use on abundances of dead corals and other acroporids (mid-shelf) and <i>C. vagabundus</i> (outer-shelf) .....	18
3.	Bar charts of statistically significant interactions between zoning history and habitat .....	22
4.	Bar charts of statistically significant interactions between zoning history and shelf position .....	23
5.	Bar charts of statistically significant interactions between zoning history and tourist use .....	24
6.	Bar charts of statistically significant interactions between tourism use and habitat .....	25
7.	Bar charts of statistically significant interactions between zoning history, use and habitat .....	25
8.	Bar charts of inter-annual variation in abundances of taxa sampled in 1990 and 1991 for which variation was similar across habitats and/or shelf positions .....	28
9.	Bar charts of habitat-dependent inter-annual variation in abundances of benthos and large fishes for seven mid-shelf and seven outer-shelf reefs surveyed in both 1990 and 1991 .....	29
10.	Bar charts showing the effects of significant interactions between shelf position and habitat on inter-annual variation in counts of dead standing coral and <i>C. trifasciatus</i> .....	29
