

# CONTENTS

<b>Preface</b> .....	1
----------------------	---

## INTRODUCTORY SESSION ·····

Partnerships and collaboration: management of the Great Barrier Reef World Heritage Area, past, present and future <i>I McPhail</i> .....	5
Advances in scientific research on the Great Barrier Reef since 1983 <i>R Reichelt</i> .....	9

## SESSION 1 ·····

### **Land use influence and nearshore processes and pressures**

Keynote Paper: Run-off from the land to the rivers and the sea <i>R Wasson</i> .....	23
Sources of material in river discharge <i>G Rayment* and D Neil</i> .....	42
Terrestrial inputs of nutrients and suspended sediments to the Great Barrier Reef lagoon <i>A Mitchell and M Furnas*</i> .....	59
Marine plants as bioindicators to infer source, transport and fate of nutrients on the Great Barrier Reef <i>B Dennison</i> (abstract only) .....	72

## SESSION 2 ·····

### **Pressures and effects on the Great Barrier Reef lagoon**

Keynote Paper: Biological oceanography of the Great Barrier Reef <i>M Furnas* and A Mitchell</i> .....	75
Soft-bottom benthic communities and processes in the Great Barrier Reef lagoon <i>D Alongi</i> (Paper not presented) .....	88
Impacts on and responses of seagrasses in the Great Barrier Reef - issues for management <i>W Lee Long* and R Coles</i> .....	101
The effects of prawn trawl fisheries on Great Barrier Reef seabed habitats <i>R Pitcher*, C Burridge, T Wassenberg and I Poiner</i> .....	107
Endangered and charismatic megafauna <i>H Marsh*, P Arnold, C Limpus, A Birtles, B Breen, J Robins and R Williams</i> .....	124

## SESSION 3 ·····

### **Pressures on reefs, islands and cays**

Keynote Paper: Issue-driven research for managing the Great Barrier Reef: progress and future directions <i>T Done*, L Bode, R Coles, C Crossland, U Engelhardt, M Furnas and K Woolfe</i> .....	141
--	-----

Population and community dynamics of corals: implications for management of the Great Barrier Reef <i>T Hughes</i> (abstract only) .....	151
Environmental implications of waste-water management on resort islands of the Great Barrier Reef <i>R Volker*, M Gallagher and A Johnston</i> .....	152
Threats, status, trends and management of seabirds on the Great Barrier Reef <i>K Hulsman*, P O'Neill, T Stokes and M Warnett</i> .....	164
The effects of line fishing on the Great Barrier Reef: available evidence and future directions <i>B Mapstone*, C Davies and J Robertson</i> .....	178

## SESSION 4 ·····

### Large-scale phenomena and organism response

Keynote Paper: Massive corals: grand archives of Australian paleoclimate <i>M Gagan*, S Anker, L Ayliffe, D Barnes, J Chappell, D Hopley, P Isdale, J Lough and M McCulloch</i> .....	195
Coral bleaching: implications for the Great Barrier Reef Marine Park <i>O Hoegh-Guldberg*, R Berkelmans and J Oliver</i> .....	210
Geoscience issues on the Great Barrier Reef: time scales for reef and shelf processes <i>D Johnson*, P Larcombe, B Carter, A Orpin, P Ridd and K Woolfe</i> .....	225
Organism level response of corals to increased nutrients concentrations <i>D Yellowlees</i> (abstract only) .....	242
A review of the possible causes and consequences of outbreaks of the crown-of-thorns starfish ( <i>Acanthaster planci</i> ) on the Great Barrier Reef - an Australian perspective <i>U Engelhardt* and B Lassig</i> .....	243
Physical oceanography <i>E Wolanski and B King*</i> .....	260

## ADDITIONAL SESSION ·····

### Management-science links

Catchment management links to the Great Barrier Reef <i>C Robson</i> (presented by D Begbie) .....	269
Effects of sugarcane growing on the environment <i>H Bonanno</i> (presented by I Ballantyne) .....	286
The marine tourism initiative towards use management in the Great Barrier Reef <i>E Green</i> .....	292
Fisheries management in the Great Barrier Reef region <i>J Tanzer*, M Elmer and T Healy</i> .....	298

## SESSION 5 ·····

### People and the Reef

Keynote Paper: Science brokering and managing uncertainty <i>P Cullen</i> .....	309
---	-----

Science and tourism infrastructure on the Great Barrier Reef: learning from experience or just 'muddling through'? <i>G Inglis</i> .....	319
Understanding Great Barrier Reef economics <i>S Driml*, T Hundloe and R Blamey</i> .....	335
Understanding the tourist market <i>P Pearce*, G Moscardo and B Woods</i> .....	343
Understanding visitors and use through social sciences research <i>M Fenton and D Benzaken</i> (abstract only, not presented) .....	353

## SESSION 6 · · · · ·

### Reef connectedness

Keynote Paper: Connectivity and the replenishment of fish populations on coral reefs <i>P Doherty</i> (abstract only) .....	357
On the assumption of larval dispersal among reefs: caution advised <i>G Jones</i> (abstract only).....	358
Genetic evidence for connectivity, past and present: implications for management <i>J Benzie</i> (abstract only) .....	359
Patterns of coral diversity within the Great Barrier Reef <i>C Veron</i> (abstract only) .....	360
Larval transport modelling in the Great Barrier Reef <i>M James*, L Mason and L Bode</i> .....	361

## SESSION 7 · · · · ·

### Managing the Great Barrier Reef World Heritage Area

Keynote Paper: Can the Great Barrier Reef World Heritage Area be managed sustainably? <i>I Lowe</i> (abstract only).....	379
The changing roles of aboriginal people in the management of the Great Barrier Reef. <i>N Pearson and A Leibler</i> (Presented by A Tanner, abstract only) .....	380
State of the Great Barrier Reef World Heritage Area report <i>J Oliver</i> (abstract only).....	381
The Great Barrier Reef: multiple-use marine park and world heritage site <i>P Valentine*, T Webb, H Marsh and P Lucas</i> .....	382
Community involvement in the management of the Great Barrier Reef <i>D Tarte* and E Hegerl</i> .....	396

Throughout this table of contents\* indicates, in the case of a multi authored paper, the person who presented the paper at the conference.
