APPENDIX	24

FIGURES

Figure 1.	Location of Oyster Point survey area.....	4
Figure 2.	Mean, standard error and range of depth of occurrence for each seagrass species in the survey area at Oyster Point in November 1995, December 1997, November 1998 and December 1999; transect data only.....	10
Figure 3.	Mean, standard error and range of above-ground biomass for each seagrass species in the survey area at Oyster Point (sites with seagrass present) in November 1995, December 1997, November 1998 and December 1999.....	11
Figure 4.	Changes in mean above-ground seagrass biomass (all species pooled, g DW m ⁻²) between November 1995 to November 1998 and November 1998 to December 1999 for each permanent transect at Oyster Point..	12
Figure 5.	Number of eastern sector windy days (>10 knots at 0900 or 1500 hrs) per month at Cardwell, from February 1995 to December 1999. Data courtesy of Bureau of Meteorology, Queensland.....	14
Figure 6.	Number of cloudy (8/8 cloud cover at 0900 or 1500 hrs) days per month at Cardwell, from February 1995 to December 1999.....	14

MAPS

Map 1.	Oyster Point survey area and sampling sites - November 1995 to December 1999.....	15
Map 2.	Distribution of seagrass (all species pooled) at Oyster Point – November 1995 to December 1999.	16
Map 3.	Distribution of <i>Halodule uninervis</i> (narrow) at Oyster Point – November 1995 to December 1999.	17
Map 4.	Distribution of <i>Halophila decipiens</i> at Oyster Point - November 1995 to December 1999.....	18
Map 5.	Distribution of <i>Halophila ovalis</i> at Oyster Point - November 1995 to December 1999.....	19

TABLES

Table 1.	Frequency of occurrence, mean above-ground biomass and meadow area for each seagrass species at Oyster Point, November 1995, December 1997, November 1998 and December 1999.	9
Table 2.	Results of regressions of each diver's seagrass biomass estimation with harvested above-ground biomass (g DW m ⁻²).....	24
Table 3.	Number of intertidal and sub-tidal sites used to calculate mean above ground biomass at each survey transect, north and south, of Oyster Point in November 1995, December 1997 and November 1998.....	24
