

## ACKNOWLEDGMENTS

The Great Barrier Reef Marine Park Authority would like to thank all workshop participants for making the workshop successful. Thank you also to those who were unable to attend but offered their support. In particular we would like to thank Dr Don Kinsey for chairing the workshop and Simon Woodley, Steve Hillman, Dr David Lawrence and Don Alcock for their valuable assistance in acting as facilitators. The efforts of the guest speakers, Dr Wendy Craik, Dr Richard Edgehill, Dr Bruce Kelley, Ms Rundy Larsen, Professor Paul Greenfield, Dr Alan Sheehy and Mr Locon Wall, some of whom prepared high quality presentations at extremely short notice, are greatly appreciated. Thank you also to Dr Alan Mearns of NOAA for submitting material despite not being able to attend. Special thanks must go to Jennifer Lash for her extra efforts in preparing and editing the workshop proceedings and to Trish Drury for formatting and finishing touches.

The principal organiser of the workshop was Steve Raaymakers of the Great Barrier Reef Marine Park Authority. Further information on any aspect of the workshop or on oil spills in the Great Barrier Reef Region in general may be obtained from him at:
