

ACKNOWLEDGMENTS

The Great Barrier Reef Marine Park Authority would like to thank all conference delegates for making the project as successful as it was. Thank you also to the staff and management at Lady Elliot Island for their hospitality and support in organising the whole program and to Felisa Hernandez for designing the conference logo.

Several staff at GBRMPA gave invaluable support, in particular Brian Dare and Fiona Alongi, for their efforts in designing and producing all the conference brochures and programs. Nicky Turia and Tracy Deane spent countless hours preparing manuscripts and updating data bases and their efforts are greatly appreciated.

Finally, Deb Postle was instrumental in helping to organise the whole project. Without her input, support and dedication to this project over the last twelve months the conference would not have been possible.

The principal organiser of the conference was Mark Simmons of the Great Barrier Reef Marine Park Authority. Further information on any aspect of the conference may be obtained from him at:
