

## 12. ACKNOWLEDGEMENTS

We thank the numerous people who helped this project. Fieldwork was aided by Kevin Parnell, Bruce Partain, Joanie Kleypas and local residents in the Cape Tribulation area including Cliff and Gail Truelove, Hans Nieuwenhuizen, Harry Dick, the Masons and Hugh Spencer. Laboratory analysis was facilitated by the Geology Department of James Cook University especially Chris Cuff and David Johnson, and by Clive Grant of the Geography Department. The project was supported by funds from the Great Barrier Reef Marine Park Authority. Claudia Baldwin from the Authority provided much appreciated liaison.
