REPORTS AND PUBLICATIONS

The following reports and papers are based on research conducted with financial support (in part or full) through the Authority's COTSREC Program and from the AIMS crown-of-thorns Study. The list does not include Progress Reports to the Authority. Some studies were commenced prior to the COTSREC Program (in most cases with funding through the COTSARC Program), but all reports and papers were published between July 1989 and June 1995.
