The opinions expressed in this document are not necessarily those of the
Great Barrier Reef Marine Park Authority. Accuracy in calculations, figures, tables,
names, quotations, references etc. is the complete responsibility of the authors.

Information contained in this publication is provided as general advice only. For
application to specific circumstances, professional advice should be sought. Seagrass
maps in this report are magnified so that small meadows can be illustrated. Estimates
of mapping error (necessary for measuring changes in distribution) are not to be
inferred from the scale of these hard-copy presentation maps. These can be obtained
from the original GIS database maintained at the Northern Fisheries Centre, Cairns
and archived at the Great Barrier Reef Marine Park Authority.

The Department of Primary Industries, Queensland has taken all reasonable steps to
ensure the information contained in this publication is accurate at the time of the
survey. Seagrass distribution and abundance can change seasonally and between
years, and readers should ensure that they make appropriate inquiries to determine
whether new information is available on the particular subject matter.
