

APPENDICES

Working Groups • Guidelines for Discussion

1. Summary of Known Impacts from 199 1 Floods.

2. Cause of the Impacts

specific

general

Were they avoidable?

3. Management Response

How did the managing agency or person in charge respond?

How successful were their actions?

Did their action ameliorate the impacts?

4. Alternative Actions

What options were available other than the action taken?

Has there been any change in operational procedure since that time?

What new initiatives have been put in place since the floods to minimise the impacts?

Who is responsible for the new initiative?

5. Planning and Research Required

What research is needed prior to introducing new management options?

Have planning practices been modified to **minimise** the impacts of flooding?

Should planning practices or processes be modified to minimise flood impacts?

Workshop Ndminees and Participants

Name	Organisatibn
Peter Baddiley	Meteorology Bureau
Ross Beer	'Police Department
Nev. Bienev	Landholder
