

TABLE OF CONTENTS

SUMMARY	1
1. INTRODUCTION	3
2. METHOD OF ALLOCATION OF NUTRIENTS TO BASINS	5
2.1 Queensland Data.....	5
2.2 Statistical Divisions.....	5
2.3 Local Authority Areas	6
2.4 Using Australian Bureau of Statistics Data to Obtain Nutrient Usages	7
2.5 Fertilizer Industry Data.....	8
2.6 Drainage Basins.....	9
2.7 Allocation of Nutrients to Basins	10
3. NUTRIENT USAGE IN SOME EASTERN QUEENSLAND BASINS	12
3.1 Nitrogen Usage.....	12
3.2 Phosphorus Usage	17
3.3 1990 Nitrogen and Phosphorus Usage Relative to Basin Areas	24
3.4 1990 Nitrogen and Phosphorus Usage Relative to Basin Run-off	25
4. DISCUSSION	28
5. ACKNOWLEDGMENTS	30

TABLES

1. Area, rainfall and run-off statistics of some eastern Queensland basins	11
2. Fertilizer nitrogen usage in basins 108-138.....	12
3. Fertilizer nitrogen usage at five-year intervals from 1910 to 1990, in groups of basins.....	16
4. Fertilizer nitrogen usage in some eastern Queensland basins in 1990	17
5. Fertilizer phosphorus usage in basins 108-138.....	18
6. Fertilizer phosphorus usage at five-year intervals from 1910 to 1990, in groups of basins	22
7. Fertilizer phosphorus usage in some eastern Queensland basins in 1990	22
8. Fertilizer nitrogen and phosphorus usage in 1990	23
9. Basin areas, total nitrogen and phosphorus usage and average rates applied in 1990.....	24
10. Average nitrogen and phosphorus rates applied in some eastern Queensland basins in 1990	25

11. Nitrogen and phosphorus application in 1990 relative to mean annual run-off volume	26
12. Ratios of nitrogen and phosphorus usage in 1990 to mean annual run-off volume	27

FIGURES

1. Queensland drainage divisions.....	10
