
ACKNOWLEDGMENTS

We are grateful to Rolly McKay and Jeff Johnson of the Queensland Museum, Brisbane, for access to their collections and help with identifications. Thanks are due also to Dr G.R. Allen (W.A. Museum, Perth - Ephippidae), Dr A.M. Ayling (Sea Research, Daintree - Acanthuridae, Chaetodontidae), A.C. Gill (University of New England, Armidale - Pseudochromidae), Dr M.F. Gomon (Museum of Victoria, Melbourne - Triglidae), Dr G. Hardy (National Museum of New Zealand, Wellington - Chimaeridae, Tetraodontidae), Dr D.F. Hoese (Australian Museum, Sydney - Gobiidae), H. Kishimoto (Tokai University, Japan - Uranoscopidae), H.K. Larson (N.T. Museum, Darwin - Gobiidae), Dr P. Last (CSIRO Division of Fisheries Research, Hobart - Dasyatididae, Rajidae), Dr J.E. Randall (Bernice P. Bishop Museum, Honolulu - Serranidae), M. Samoilys (Heron Island Research Station - Serranidae), and Dr R. Waples (Northwest and Alaska Fisheries Center, Seattle - Synodontidae), each of whom contributed identifications or information. The Queensland Department of Primary Industries, Fisheries Research Branch, provided research time for G.R.L. and made available the facilities of the Burnett Heads Laboratory. The Great Barrier Reef Marine Park Authority provided support for B.C.R. to examine specimens in the Queensland Museum.
