

## PERMIT

G18/39322.1

Great Barrier Reef Marine Park Regulations 1983 (Commonwealth)  
Marine Parks Regulation 2017 (Queensland)

### CORE MATTERS

---

These permissions remain in force, unless sooner  
surrendered or revoked, for the following period:

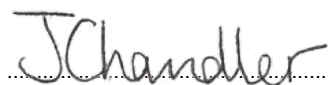

**30-NOV-2018** TO **30-NOV-2033**

Permission is granted to:

PERMIT HOLDER: **YARRABAH ABORIGINAL SHIRE COUNCIL (ABN 30 977 526  
871)**

ADDRESS: **56 Sawmill Road  
YARRABAH QLD 4871**

for use of and entry to zones in the **Amalgamated Great Barrier Reef Marine Park Section** (as established by the *Great Barrier Reef Marine Park Act 1975* (Cth)) and the **Great Barrier Reef Coast Marine Park** (as established by the *Marine Parks Act 2004* (Qld)) in accordance with the details set out herein.

Date 20/11/2018

Delegate of the  
Great Barrier Reef Marine Park Authority

Date 30/11/2018

Delegate of the Chief Executive of the  
Department of Environment and Science

---

### THE PURPOSE/S OF USE AND ENTRY MAY ONLY BE UNDERTAKEN IN THE ZONE/S DESCRIBED BELOW

---

#### ZONE/S AND LOCATION/S TO WHICH THE PERMISSION APPLIES:

- CONSERVATION PARK ZONE – waters adjacent to Yarrabah.

#### PURPOSE/S OF USE AND ENTRY AUTHORISED BY THE PERMISSION:

- **OPERATING A FACILITY** – including building, assembling, fixing in position, maintaining or demolishing the facility, being:
  - (i) One (1) piled concrete jetty.
- **ANY OTHER PURPOSE** – being a Fuel Transfer Program.

---

## CONDITIONS OF PERMISSIONS

---

### COMPLIANCE WITH ALL LAWS

- 1 All activities conducted under this permission, must be undertaken in accordance with the provisions of the laws in force from time to time in the State of Queensland and the Commonwealth of Australia.
- 2 The Permit Holder must ensure that when operations are conducted in the Marine Parks under this permit, this permit or a copy, and any relevant documents including an approved Environmental Management Plan or Schedule of Works are held at the site or sites of operation.
- 3 The Permit Holder must inform staff and participants in the program of relevant restrictions applying under any zoning plans, plans of management, Marine Parks regulations and this permit.
- 4 The Permit Holder must further comply with the conditions specified in any schedules attached to this permit when entering or using a zone of, or place in the Marine Parks to which the relevant conditions relate.
- 5 The Permit Holder must install and operate the facilities permitted under this permit within two (2) years of the date of commencement of this permit, unless otherwise advised in writing by the Managing Agency.

### DEED CONDITIONS

- 6 Within 30 business days of the date of commencement of this permit, the Permit Holder must execute, seal and deliver as a Deed to the Great Barrier Reef Marine Park Authority in the form annexed to this permit, identified with the permit number, and marked 'Deed of Agreement'.
- 7 The Permit Holder must observe and perform its obligations under and pursuant to the Deed. Any breach of the Deed shall be a breach of this condition.
- 8 The Permit Holder must provide to the managing Agency copies of certificates of currency or the insurance policy documents required under the Deed of Agreement within 21 days of being called upon to do so.

### AUTHORITY CONDITIONS

- 9 The Permit Holder may authorise other persons to conduct the activities covered by this permit, by giving to those persons an Authority in the form attached to the permit (Attachment A).
- 10 An Authority remains valid for the period of time shown on each individual Authority, unless the Authority is sooner revoked in writing by the Permit Holder or unless the permission is sooner suspended, revoked or expires.
- 11 The Permit Holder must attach a copy of the permit to any Authority issued.

### ENVIRONMENTAL HARM CONDITIONS

- 12 The Permit Holder must take all reasonable steps to ensure that activities carried out under this permit do not cause harm to the environment.
- 13 The Permit Holder must notify the Managing Agency, by any means possible within 24 hours, of all incidents. The notification must include:
  - (i) details of the incident including date, time, location, cause and nature of the incident;
  - (ii) the name and contact details of the person(s) witnessing, reporting and/or responsible for the incident;
  - (iii) the type, estimated volume and concentration of any pollutants involved;
  - (iv) the type and number of any pests transported; and
  - (v) measures taken or proposed to be taken to mitigate the impact or risk and the success of those measures in addressing the incident or risk.

- 14 The Permit Holder must then provide written details of the notification as specified in condition 13 to the Managing Agency within 48 hours of the time the Permit Holder became aware of the incident. This written notification must include details specified in condition 13 as well as the following:
  - (i) measures taken or proposed to prevent or mitigate against the recurrence of such an incident; and
  - (ii) any other relevant matters.
- 15 The Permit Holder must keep a record of all incidents and provide the record for inspection upon request by the Managing Agency. Such records must be kept and made available for the term of the permit.

#### **ENVIRONMENTAL MANAGEMENT PLAN CONDITIONS**

- 16 The Permit Holder must submit to the Managing Agency for approval an Environmental Management Plan for construction phase of the activity, no later than 120 business days from the date of commencement of this permit.
- 17 The Permit Holder must not carry out any works until the Environmental Management Plan has been approved by the Managing Agency.
- 18 The Managing Agency may request the Permit Holder to make revisions to the Environmental Management Plan, if required to meet the objectives of the *Great Barrier Reef Marine Park Act 1975*.
- 19 Any revisions to the Environmental Management Plan must be approved in writing by the Managing Agency prior to implementation.
- 20 The Permit Holder must comply with any works or operations specified in the Environmental Management Plan.
- 21 The Environmental Management Plan must include, but not limited to, those items specified in Attachment B.

#### **SCHEDULE OF WORKS CONDITIONS**

- 22 The Permit Holder must provide a Schedule of Works in writing to the Managing Agency, no less than 20 business days prior to the commencement of any works not covered in the approved Environmental Management Plan.
- 23 The Permit Holder must not carry out any works until the Schedule of Works and/or Environmental Management Plan has been approved in writing by the Managing Agency.
- 24 The Permit Holder must implement the Schedule of Works as approved in writing by the Managing Agency.

#### **ENVIRONMENTAL SITE SUPERVISOR CONDITIONS**

- 25 Where the Permit Holder is advised by the Managing Agency that environmental site supervision of works is required, the Permit Holder must:
  - (i) provide the 24-hour contact details of an on-site liaison officer whom the Environmental Site Supervisor can contact; and
  - (ii) provide the Environmental Site Supervisor with access to the works as and when they require.
- 26 The Environmental Site Supervisor is authorised to stop, suspend or modify works, which in their opinion have caused or are likely to cause environmental harm.
- 27 Where the Environmental Site Supervisor has directed the Permit Holder to cease works, the Permit Holder must not recommence works unless authorised by the Environmental Site Supervisor.
- 28 Where the Environmental Site Supervisor directs the Permit Holder to cease or modify the works, the conduct of the Permit Holder when complying with the direction must be in accordance with:
  - (i) any directions given by the Environmental Site Supervisor; or
  - (ii) an approved Schedule of Works or Environmental Management Plan.
- 29 The Permit Holder must ensure that its officers, employees, contractors, agents and/or nominees comply with any direction given by the Environmental Site Supervisor for the purpose of ensuring compliance with this permit, and any direction considered necessary by the Environmental Site Supervisor for the conservation, protection and preservation of the Marine Parks and property in the Marine Parks.

## **PROTECTED SPECIES CONDITIONS**

- 30 The Permit Holder must ensure that all drilling, vibratory hammering and pile driving works, or any other works likely to create acute or chronic underwater noise or vibration, are conducted according to the following measures to minimise the impacts of underwater noise on marine fauna:
- (i) an observation zone extending no less than a radius of 300 metres around the in-water works is established, and monitored by a Marine Mammal Observer during all works;
  - (ii) in-water works shall not commence if marine mammals or protected reptiles are sighted within the observation zone based on a minimum pre-works observation time of 30 minutes and ongoing monitoring during works;
  - (iii) “soft start” of works shall commence at least 10 minutes prior to the operational use of in-water drills, vibratory hammers or pile driving equipment;
  - (iv) in-water works shall cease if a marine mammal or protected reptile is observed within the observation zone;
  - (v) in-water works shall not recommence until the marine mammal or protected reptile sighted within the observation zone is observed to leave the observation zone, or is not sighted for at least 30 minutes; and
  - (vi) any other measures specified in the approved Environmental Management Plan or any other measures specified by the Managing Agency in writing.
- 31 The Permit Holder must notify the Managing Agency if a protected species is found stranded, injured or dead within 300 metres of the permitted facilities or permitted works no later than 24 hours after the protected species is found. If works are underway at the time or have taken place within the previous week, the Permit Holder must further ensure that:
- (i) all use of equipment that may have contributed to the injury or death of the protected species ceases immediately;
  - (ii) an assessment is made of the cause of the incident and a report submitted to the Managing Agency;
  - (iii) additional measures are incorporated into the Environmental Management Plan to minimise the risks identified; and
  - (iv) the works do not resume without the written approval of the Managing Agency.

## **FACILITY NOTIFICATION APPROVAL CONDITIONS**

- 32 The Permit Holder must only operate the permitted facility in accordance with a Facility Notification Approval.
- 33 An approval under condition 32 above ceases to have effect when a subsequent Facility Notification Approval is given under that condition.
- 34 The Permit Holder must ensure that the Facility Notification Approval is held with this permit at all times.

## **FUEL TRANSFER CONDITIONS**

- 35 This permit allows for the transfer of fuel during construction works only, unless otherwise approved in writing by the Managing Agency.
- 36 This permit allows for the transfer of fuel between permitted construction vessels, when located at Mission Bay, and which is conducted:
- (i) in accordance with a Fuel Transfer Operations Manual, once approved by the Managing Agency and dated within the last 12 months; and
  - (ii) during daylight hours only; and
  - (iii) during sea state conditions at Beaufort Wind Force Scale 2 or 3.
- 37 The Permit Holder must, within 40 business days prior to the commencement of works submit for approval to the Managing Agency via email to [permitscompliance@gbmpa.gov.au](mailto:permitscompliance@gbmpa.gov.au) a Fuel Transfer Operations Manual.
- 38 The Fuel Transfer Operations Manual must include, but not be limited to:
- (i) a record detailing the total volume, and mode of transport of fuel transported and transferred under this permit which shall be provided to the Managing Agency upon request;
  - (ii) a fuel transfer and incident response training program to be completed by staff prior to commencing operations in the Marine Parks.

- 39 The Permit Holder must submit to the Managing Agency for approval, via email to [permitscompliance@gbrmpa.gov.au](mailto:permitscompliance@gbrmpa.gov.au), any revisions to the Fuel Transfer Operations Manual prior to implementation.
- 40 The Permit Holder must ensure that a written copy of the approved Fuel Transfer Operations Manual is kept on all vessels where fuel transfer operations occur and is easily accessible.
- 41 The Permit Holder must ensure that any permitted vessel is equipped with a spill response kit suitable for the types and volumes of bulk fuel that may be transported and transferred.
- 42 The Permit Holder must ensure that any incidents concerning the spillage, discharge or flushing of fuels, oils or oil mixtures in the Marine Parks are immediately reported to Australian Maritime Safety Authority (AMSA), Canberra, the Great Barrier Reef Marine Park Authority (GBRMPA), Townsville and Maritime Safety Queensland (MSQ).
- 43 The Permit Holder must ensure that detergents or dispersants are not used or discharged in the Marine Parks without prior authorisation by the Managing Agency.

#### **OPERATION AND MAINTENANCE CONDITIONS**

- 44 The Permit Holder must provide an inspection report to the Managing Agency, certified by a Registered Professional Engineer of Queensland that verifies the facility has been installed in accordance with the Design and Construction Drawings, no later than 30 business days after completion of the works.
- 45 The Permit Holder must obtain a compliance certificate, certified by an Engineer or Level 1 Bridge Inspector, that verifies the facility has been installed and maintained in accordance with the As Constructed Drawings every five (5) years from the commencement date of this permit.
- 46 The compliance certificate must be provided to the Managing Agency within 20 business days of the inspection taking place.
- 47 The Permit Holder must, within 20 business days of being called upon to do so, provide to the Managing Agency:
  - (i) As Constructed Drawings of the permitted facilities; and
  - (ii) Global Positioning System (GPS) location of the permitted facilities.

---

## INTERPRETATION AND DEFINITIONS

---

### INTERPRETATION

This permit extends to all employees of the Permit Holder, or other persons, who are acting on behalf of, or at the direction of, the Permit Holder for the purposes specified in this permit.

This permit is not intended to extinguish any native title.

A law shall be taken to be a law in force in the State of Queensland notwithstanding that it applies to only part of the State.

A word or phrase in this permit has the same meaning as the word or phrase has in the *Great Barrier Reef Marine Park Act 1975* (Cth), the *Great Barrier Reef Marine Park Regulations 1983* (Cth), the *Marine Parks Act 2004* (Qld), the *Marine Parks Regulation 2017* (Qld), Zoning Plans or Plans of Management, unless the contrary intention appears.

A note or heading may be used to give assistance in interpreting conditions in case of ambiguity.

A reference to a date includes that date.

### DEFINITIONS

**'as Constructed Drawings'** means a complete set of drawings that reflect how the facility was actually built, including on-site revisions and any "as built" modifications from the Design Construction Drawings signed by a Registered Professional Engineer Queensland.

**'biotoxic product'** means a substance containing contaminants at concentrations which are known to cause acute or chronic effects on marine biota, including copper, chrome, arsenic (CCA), tributyltin (TBT) or Tri-Chlor.

**'Compliance certificate'** means a certificate of compliance for a facility and/or mooring system, approved by an appropriately qualified person.

**'Design Construction Drawings'** means the drawing/s showing what is to be built signed by a Registered Professional Engineer Queensland.

**'Engineer'** means a person who has the qualification, training and skill in the design, construction and maintenance of facilities.

**'environment'** includes:

- (a) ecosystems and their constituent parts;
- (b) natural and physical resources; and
- (c) the qualities and characteristics of locations, places and areas, that contribute to their:
  - (i) biodiversity and ecological integrity; or
  - (ii) intrinsic or attributed aesthetic, cultural, heritage, ecological, economic, recreational, social, scientific value or interest or amenity.

**'Environmental Management Plan'** means the environmental management plan prepared by the Permit Holder (or at its direction), and approved by the Managing Agency in writing. It must be able to identify all risks, be effectively audited, have key performance indicators, monitoring and review, and comply with ISO Australian Standards.

**'Environmental Site Supervisor'** means the person from time to time nominated in writing by the Managing Agency to the Permit Holder.

**'facility'** in this permit has the same definition as the word has in the *Great Barrier Reef Marine Park Act 1975*. Facility includes a building, a structure, a vessel, goods, equipment, or services.

**'Facility Notification Approval'** is a written approval from the Managing Agency that contains facility details including: the Global Positioning System location and datum; the type; the status; and particulars of the As Constructed Drawings.

**'harm'** includes:

- (a) any adverse effect;
- (b) direct or indirect harm; or
- (c) harm to which the person's use or entry has contributed, to any extent (whether or not other matters have contributed to the harm).

**'harm'** to the environment is material if:

- (a) it involves actual or potential harm to the health or safety of the environment that is not trivial and any act or omission that results in the pollution of the Marine Parks; or
- (b) it results in actual or potential loss or property damage of an amount, or amounts in aggregate, exceeding \$10,000 (or such other amount as is prescribed by the regulations). Loss includes the reasonable costs and expenses that would be incurred in taking all reasonable and practicable measures to prevent, mitigate or make good harm to the environment that is not trivial or otherwise not authorised by this permit.

**'incident'** means an event involving actual or potential harm to the ecosystem, including but not limited to:

- (a) coral damage; or
- (b) a cyclone; or
- (c) any shipping event that requires notification to a relevant authority under the Queensland Marine Act 1958 or the Navigation Act 2012; or
- (d) any aircraft event that requires notification to the relevant Authority under the Civil Aviation Act 1988; or
- (e) any discharge of more than five (5) litres of untreated sewage effluent; or
- (f) any discharge of more than five (5) litres of hazardous chemicals, fuel or biotoxic products.

**'Level 1 Bridge Inspector'** means a person who holds a certificate of accreditation as a Level 1 Bridge Inspector in accordance with the Queensland Department of Transport and Main Roads requirements.

**'Managing Agency'** means:

- (a) in relation to the Great Barrier Reef Marine Park, the Great Barrier Reef Marine Park Authority, a member of the staff of that Authority or a person referred to in Section 48A of the Great Barrier Reef Marine Park Act 1975 (Cth) performing functions or exercising powers under that Act in accordance with an agreement referred to in that section; and
- (b) in relation to the Great Barrier Reef Coast Marine Park, means the Chief Executive of the Department of Environment and Science, his/her Delegate, an officer of the Queensland Parks and Wildlife Service, or a person referred to in section 52 of the Marine Parks Act 2004 (Qld), appointed as an inspector.

**'marine mammal'** means any member of the order Cetacea (such as whales and dolphins), order Sirenia (such as dugong), or the suborder Pinnipedia (such as seals and sea lions).

**'Marine Mammal Observer'** means a suitably experienced person for whale, dolphin, and dugong observation. The Marine Mammal Observer monitors the observation zone from an elevated vantage point to enable an unobstructed view of the area and is equipped with binoculars and a communication device throughout the duration of the monitoring.

**'Marine Parks'** means the Great Barrier Reef Marine Park established by the *Great Barrier Reef Marine Park Act 1975* (Cth) and the Great Barrier Reef Coast Marine Park established pursuant to the *Marine Parks Act 2004* (Qld).

**'Marine Parks regulations'** means

- (a) in relation to the Great Barrier Reef Marine Park, the Great Barrier Reef Marine Park Regulations 1983 (Cth); and
- (b) in relation to a Queensland Marine Park the Marine Parks Regulation 2017 (Qld).

---

## INTERPRETATION AND DEFINITIONS

---

**'observation zone'** means an area no less than 300m radius delineated by surface floats or natural land marks which is monitored by the Marine Mammal Observer and within which vessel and equipment activities are managed to minimise risks of collisions and underwater noise and vibration with marine fauna.

**'operations'** means and includes all activities, works and all plant and materials comprising or used in connection with activities authorised by the permit and the use (authorised or unauthorised) of the Marine Parks in connection with the permit other than installation.

**'permit'** means the permissions the subject of Permit Number G39322.1 granted to the Permit Holder pursuant to the *Great Barrier Reef Marine Park Regulations 1983* (Cth) and the *Marine Parks Regulation 2017* (Qld).

**'Permit Holder'** means YARRABAH ABORIGINAL SHIRE COUNCIL (ABN 30 977 526 871).

**'pest'** means any plant or animal that is capable of causing adverse impacts to environmental, economic or social values whether or not it is a declared plant or animal listed in the *Land Protection (Pest and Stock Route Management) Regulations 2003* (Qld).

**'protected species'** means any individual from any species that meets one of the following criteria:

- (a) Each species of cetacean
- (b) is a listed threatened species, a listed migratory species or a listed marine species under the *Environment Protection and Biodiversity Conservation Act 1999* (Cth);
- (c) is prescribed as endangered, vulnerable, near-threatened or least concern under the *Nature Conservation Act 1992* (Qld);
- (d) is mentioned in Table 29 of the *Great Barrier Reef Marine Park Regulations 1983* (Cth).

**'qualified'** means a person(s) who holds a current licence, certification, registration or qualification as required under Queensland laws or industry codes or standards.

**'reasonable steps'** - In determining whether all reasonable steps have been taken, regard shall be given to the following:

- (a) the nature of the harm to the environment that might or will result from the person's use or entry;
- (a) the risk of harm from the person's use or entry;
- (b) the sensitivity of the environment that might or will be affected by the person's use or entry;
- (c) if the person is using or entering a zone - any objectives specified for the zone in its zoning plan;
- (d) the practicalities, including cost, of steps that will prevent or minimise the harm;
- (e) whether or not the person's use or entry complies with the laws applying in the Marine Parks in relation to the environment or natural resources;
- (f) whether or not the person's use or entry complies with any relevant code of practice, standard or guideline; and
- (g) whether or not the person's use or entry is in accordance with any conditions of a permission granted under the regulations for the purposes of a zoning plan or a provision of the *Great Barrier Reef Marine Park Act 1975* (Cth) or the *Marine Parks Act 2004* (Qld).

**'Registered Professional Engineer Queensland'** means an engineer certified under the *Professional Engineers Act 2002* (s115) or someone acting under the direct supervision of a registered professional engineer.

**'Report'** means a detailed report produced by a suitably experienced person detailing, as a minimum, the objectives, methods, results and recommendations from a study or monitoring program.

**'research and monitoring'** means and includes surveying, sampling, collecting and/or monitoring of environmental variables or biota related to installation, operation, maintenance, decommissioning and/or removal of the Marina.

**'Schedule of Works'** means a document which may include but is not limited to:

- (a) details of the works to be undertaken including the methods and timeframe for works;
- (b) design construction drawings;
- (c) a risk assessment;
- (d) any proposed risk mitigation measures;
- (e) if appropriate, details of the disposal and fate of waste and/or the facility including any encrusting fauna and flora; and
- (f) any remediation strategies to rehabilitate and/or clean up the site.

**'significant event'** means an incident which is not trivial, involving actual or potential harm to the ecosystem including but not limited to:

- (a) a category 3 cyclone; or
- (b) any shipping event that requires notification to a relevant authority under the *Queensland Marine Act 1958* (Qld) or the *Navigation Act 1912*; or
- (c) any aircraft event that requires notification to the relevant Authority under the *Civil Aviation Act 1988*; or
- (d) the discharge of untreated sewage effluent.

**'Soft start'** means a method for starting works where the timing and intensity of noise and/or vibration gradually increases to operational capacity over a minimum of 10 minutes to give nearby animals a warning and opportunity to leave the area before the highest intensity works or noise occurs.

**'significant weather event'** means an incident which is not trivial, involving actual or potential harm to the ecosystem including but not limited to:

- (a) a cyclone; or
- (b) any gale or storm event with winds greater than 33 knots.

**'suitably experienced'** means a person(s) that has

- (a) demonstrated relevant experience in tropical or sub-tropical marine environments; and
- (b) has educational qualifications and/or professional experience directly relevant to the subject area for which they are providing a professional opinion or advice.

**'waste'** means any oils, noxious liquid substances, packaged harmful substances, sewage, garbage or mixtures where the oil content is greater than 15 parts in 1,000,000 parts.

**'waters adjacent to'** means in relation to a reef, the waters enclosed by 'the 500 metre line' and in relation to an island or the mainland, the waters enclosed by 'the coastal 500 metre line' (as defined by the zoning plan or Marine Park regulation that applies to those waters).

**'works'** means all activities associated with installation, construction, maintenance and/or removal of all plant and materials comprising or used in connection with the permitted activities (including dredging, installations, structures, facilities, moorings, vessels or aircraft of any kind associated directly or indirectly with the permission) and the use (authorised or unauthorised) of the Marine Parks in connection with the permit.

**'Zoning Plan'** means:

- (a) in relation to the Great Barrier Reef Marine Park, the *Great Barrier Reef Marine Park Zoning Plan 2003* (Cth); and
- (b) in relation to the Great Barrier Reef Coast Marine Park, the Marine Parks (Great Barrier Reef Coast) Zoning Plan 2004 (Qld).

**Content of Environmental Management Plan:**

The Environmental Management Plan for the construction of the Yarrabah Jetty, referred to in condition 16, must include but not be limited to:

- Water quality management controls such as floating booms.
- Communication strategy prior to and during construction.
- Noise and vibration management strategies.
- Construction vessel management including speed and anchoring restrictions. This should include identification of culturally and environmentally sensitive locations where access will be restricted.
- Weed and pest management strategies.
- Waste management protocols.
- Cultural Heritage Management Plan.

Ref.: G39322.1

YARRABAH ABORIGINAL SHIRE COUNCIL  
56 Sawmill Road  
YARRABAH QLD 4871  
ATTN: Mr John Michalenko

Dear Mr Michalenko

**Re: Permit G18/39322.1 – FACILITY NOTIFICATION APPROVAL (FNA)**

I refer to your application to the Great Barrier Reef Marine Park Authority, dated 7 November 2016, to operate a facility in the Marine Parks.

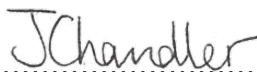

In accordance with condition 32 of your Marine Parks permit, the Managing Agencies give approval for the use of the following facility under permit G18/39322.1.

Facility Type: Jetty – 165m long comprising 33 piles  
Location: Waters adjacent to Yarrabah  
GPS Location: 16° 54.049'S 145° 06.349'E  
Status: Not installed  
Drawing No.: see **Table 1** below.

**Table 1 Yarrabah Jetty Project Drawings**

Drawing Number	Description	Date	Designer
248650-CD-TP-001	Cover Page and Drawing Index	7/08/2017	ARUP
248650-CD-GA-002	Site General Arrangement	7/08/2017	ARUP
248650-CD-MA-201 -205	Jetty Concept Plans	7/08/2017	ARUP
248650-CD-EL-301-302	General Lighting Layout	7/08/2017	ARUP

You are reminded that the permit contains the conditions under which the facility is to be operated.

.....  
Julia Chandler  
For the Managing Agencies
