

X2 Offshelf Queensland Trough

X2

Bioregion Description

Deep water offshore area extending from the edge of the continental shelf to the eastern border of the GBRWHA. The description of this bioregion is based largely on physical information as there is limited biological information available. Until further information is gained this deep water offshore area is treated as a distinct entity.

Existing zoning within bioregion (as % of total bioregion area)

General Use 'A' / General Use	Light Blue	100 %
WHA outside the GBRMP		<1 %

* No-take zones

Bioregion area	5,491 km ²
Proportion of the GBRMP	2 %

No-take Zone statistics

Area of no-take zone(s)	0 km ²
Percent of bioregion	0 %
Number of no-take zones	0

Bathymetry

Median depth	1,738 m
--------------	---------

Area exposed to flooding events 1994 - 98

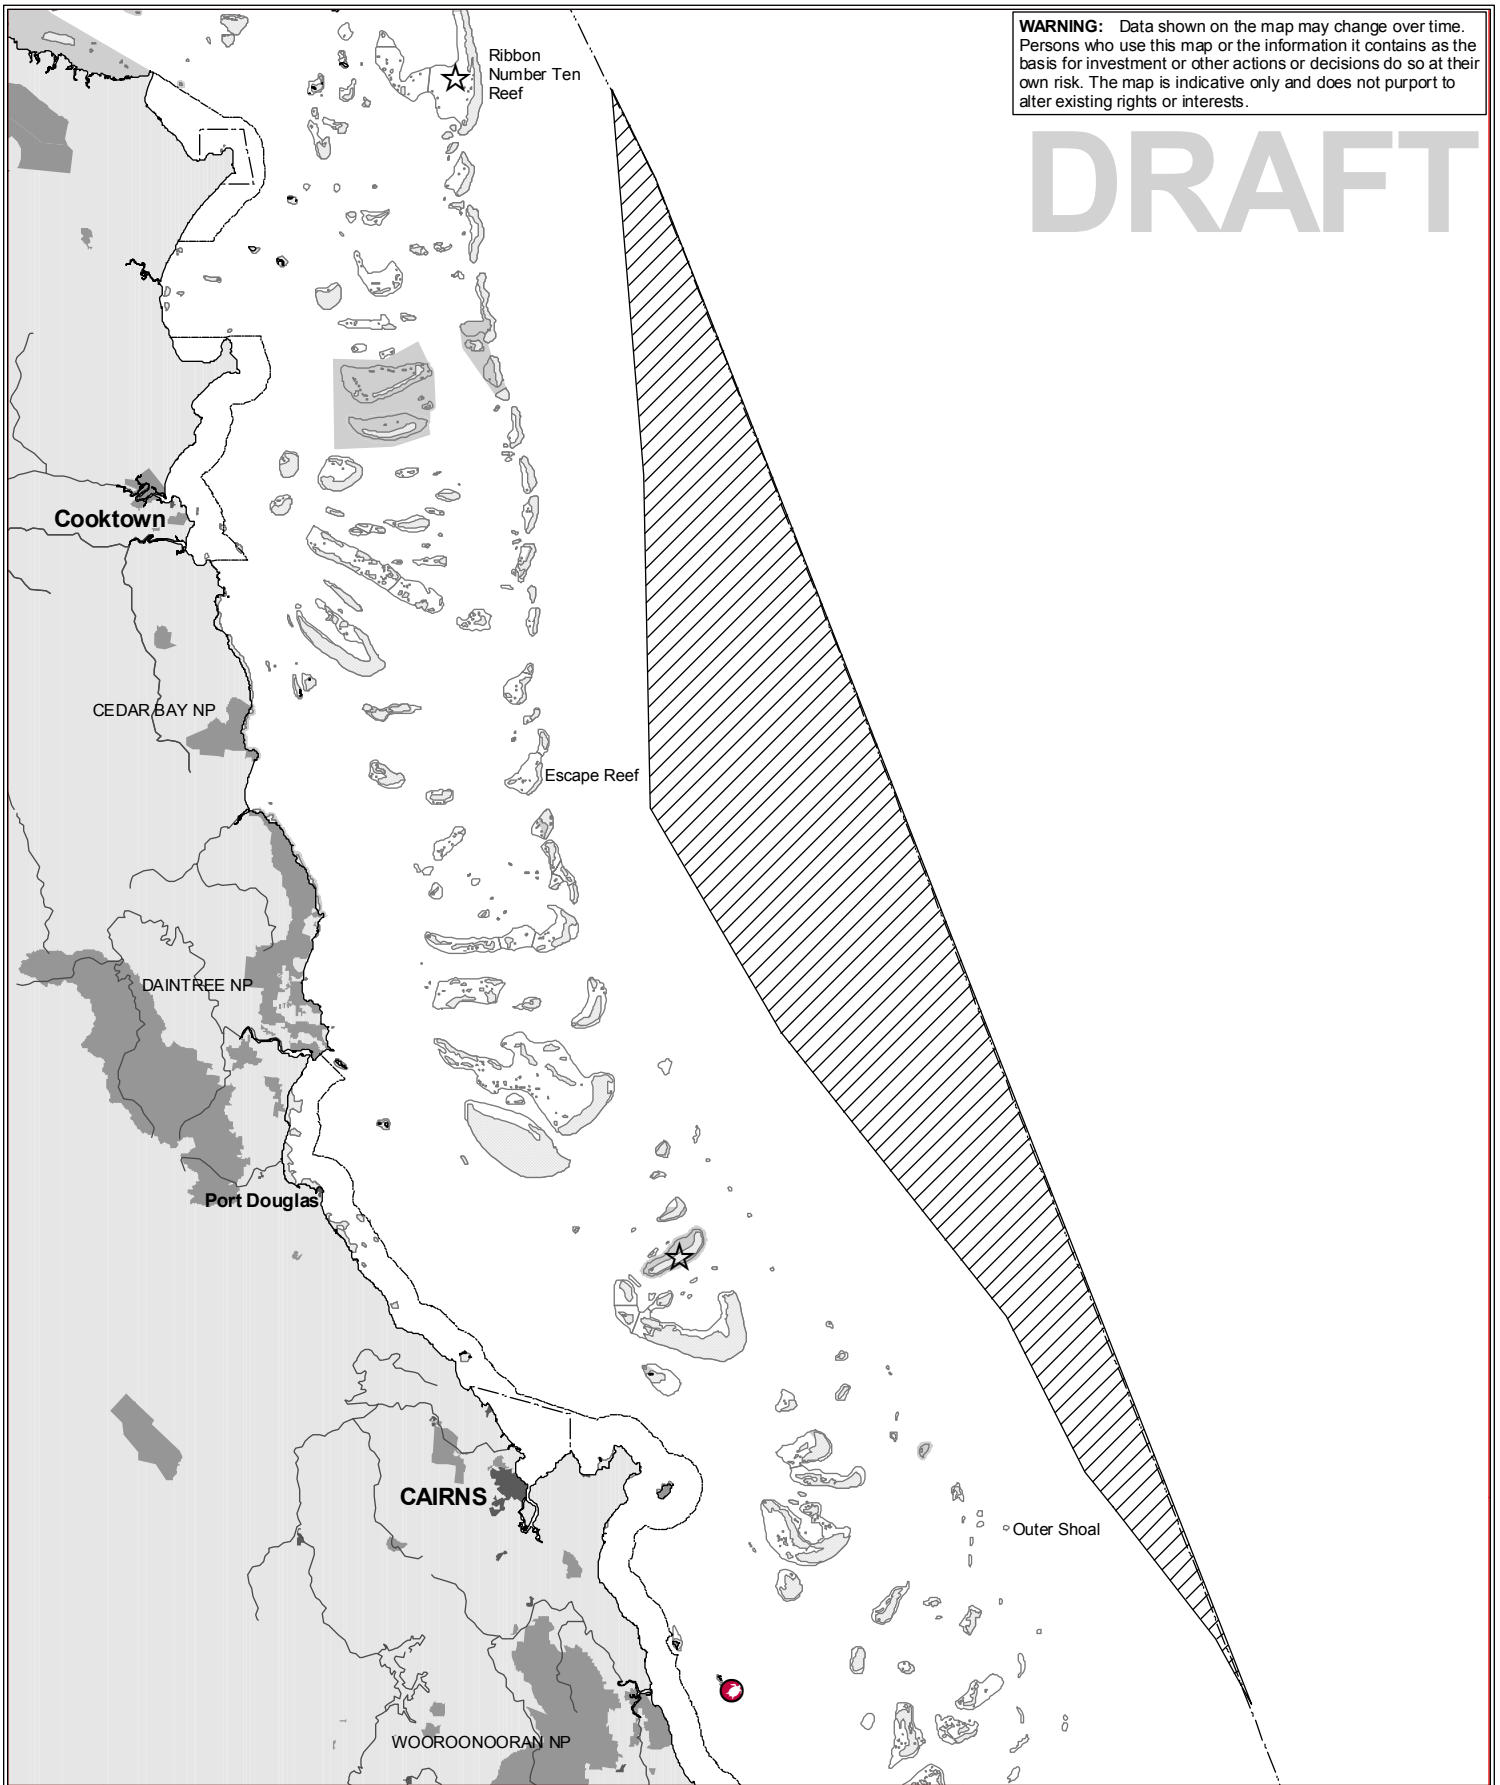

No recorded event	100 %
-------------------	-------

Substrate – Grain size

Mud dominated area
